FULL SPECTRUM EDUCATION

Individualised University & Tertiary
Academic Study Support

ONLINE | FACE-TO-FACE

A note from the Director...

Full Spectrum Education was established with the understanding that every student has individual requirements that need to be met in order to improve their grades, social skills and study abilities. For this reason, Full Spectrum Education is unlike any competing educational organisation. We craft learning plans specifically suited to the child's learning style and curriculum so the experience is truly personalised.

I guarantee that our team of passionate educators are effectively matched to each student to ensure the optimal enjoyment of their journey and best results. Here at Full Spectrum Education, we believe that our role as educators is to help students surpass their own own expectations of what they believe they can achieve.

FULL SPECTRUM EDUCATION is an **ENERGETIC**, individualised, one-on-one education company that empowers students to reach their full potential through a **CREATIVE-THINKING** approach to teaching and learning. We started Full Spectrum Education with the mindset that we could effectively influence and raise the standard of education services. This has been achieved by understanding the individual needs of each student before considering the best approach to that student's learning.

On top of achievement level, every student will benefit from our education. We have a **REUPUTABLE** and robust team of educators that include registered teachers, university academics and educators that have worked within the Australian education system or the Independent Sector, as well as educators that hold PhDs, Masters and Bachelor's degrees, or qualifications making them leaders in their field. Each educator we hire undergoes an extensive induction and training process to ensure they approach every session with **INTEGRITY** and a great sense of **FUN**.

Our team's experience in tertiary and further education has allowed us to gain a strong **UNDERSTANDING** of how each student learns and how we can create the ideal learning environment and experience for every student. With Full Spectrum Education, every student can expect more than just academic improvement. We work on skills that will also boost the students in personal and social environments, **ENCOURAGING** them to work more efficiently, effectively and confidently.

who we are.

Academic Writing

When you start your tertiary study, be it university, college, TAFE or a registered training organisation, you will be required to submit written assignments as part of your academic assessment.

These assessments can be daunting to say the least.

But Full Spectrum Education can show you an easy way to understand the task requirements and **PLAN FOR A HIGH QUALITY WRITTEN ASSIGNMENT** that more than meets the requirements of the task; it will improve your writing ability for future assignments and deepen your knowledge of the topic.

It really is that easy, and we can show you how.

NDIS Support

Most health services focus on a one-size-fits-all model, leaving many who need more tailored support with ill-fitting options. Full Spectrum Education understands that every individual is different and our one-on-one programs mean we can tailor a **SOLUTION TO SUIT YOUR INDIVIDUAL NEEDS**. We can also suggest options to explore NDIS assistance and funding support.

All of our clients get the benefits of a specially tailored program designed around their specific needs and goals. We implement these programs via one-on-one sessions delivered in your home, online or via tele-health services at your preference.

LANTITE

LANTITE is the Literacy and Numeracy Test for Initial Teacher Education, a test that measures the literacy and numeracy abilities of students who want to become teachers. The test requires students to have a certain level of literacy and numeracy before they are given their licence to teach in a school classroom.

Our educators are highly experienced in a wide range of strategies that support and enhance each student in preparation for the test. We not only teach the content and concepts, but teach those strategies that mean each test taker is **CALM AND PREPARED** before they even see the test paper.

We understand the stress of having to sit a test that involves concepts that we haven't used for a while, but rest assured that Full Spectrum Education will help you dust off the cobwebs and ace the test so you can become the best teacher you can be.

ADULT LITERACY

It is estimated that in Australia, 44% of adults read at a literacy level of about 1 to 2, the lowest levels (Australian Government, 2021). In order to gain enrolment in any tertiary education facility, students are expected to have a high level of literacy, about 4 or 5. This means that almost 50% of the Australian population are not literate enough to engage in further or tertiary education.

Full Spectrum Education specialise in, and are dedicated to, the improvement of adult literacy. Our fully qualified educators can create individual learning plans that ensure all students reach a level of literacy that improves their future academic outcomes.

We believe that **NO PERSON SHOULD BE LEFT BEHIND**, so we work hard to keep up to date with the latest adult literacy strategies to continue opening future doors for all our students.

"As an adult returning to study, Full Spectrum equipped me with all the necessary skills to enter a learning environment again with confidence. I really admired the fact the director came over himself first before assigning me a teacher. Once assigned to my teacher Ian, he taught me incredibly valuable skills that I use regularly."

Liam.

Individualised Study Plans.

Every person learns differently. Every person studies differently. So, at Full Spectrum Education, we don't standardise, we individualise. We make sure to identify your individual learning style and work towards that. Knowledge seems a lot more attainable if it delivered to you in your learning language.

Research Strategy.

During your academic journey, you will receive an incredible amount of materials you're required to read, summarise and remember. You will also be required to source your own information. We will work with you to develop strategies that maximise what you get from the huge amount of study materials you have to get through. Basically, we'll show you how to study smart, not hard!

creative-thinking

integrity

reputation

fun

“Full Spectrum Education has given me a sense of self belief and enabled me to focus on my career goals and aspirations. I am enjoying my experience as I have gained confidence in my skills so far. Still time for more improvement would highly recommend Full Spectrum Education.”
Djuarn.

Study Scheduling and Time Management.

At Full Spectrum education, we understand the importance of enjoying your time on your tertiary journey. We will sit with you and go through all of your course commitments and expectations, and together, develop a study schedule and assessment plan that works for you. We know how important it is to have time away from study, so we help design a schedule that gives you that much needed down time.

Exam Preparation.

Some students prefer to drink coffee and eat lollies for the three days leading up to their exams. But, there are ways to make sure you can get some quality sleep, and still be prepared for your exams. Full Spectrum Education will show you study and summary strategies suited to your individual learning style that will ensure you are more than ready for that big test day.

extra dimensions.

"Full Spectrum Education was amazing. After failing a subject at university, the help I received was crucial in my passing the subject with flying colours and ultimately graduating my degree."

Chloe.

"I had the wonderful pleasure of having Sue teacher me through a large university assignment. She was amazing with support and guided me through the whole process which resulted in top marks. I highly recommend Full Spectrum."

Shaylene.

Here at Full Spectrum Education we recognise the importance of catering for a diverse range of learners. To achieve this, we need to ensure that our program has incorporated into it the five dimensions of learning which are crucial to any student being successful.

Meaningful study/life balance.

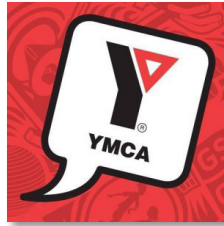

Planning strategies for all academic writing styles.

Research strategies & referencing systems.

Goal setting and self-discipline.

Lateral & critical thinking strategies.

friends and partners.

"If it wasn't for Jonathon's patience, guidance and assistance I wouldn't have - I have finally finished and will graduate in September. Thank you Jonathon for all you have done, you are an excellent tutor and your calm easy going undertone makes you so great at what you do."

Jess.

why we help.

Over one-fifth of first year Australian students will drop-out of their tertiary study in the first year.

(NCVER, 2021)

Employers look for extra-curricular activities on you CV when you apply for work. But where can you find the time with all that study?

(UNIGO, 2020)

Combining tertiary study and work can have detrimental affects on a students social and emotional well-being.

(tandfonline.com, 2021)

Success in tertiary study is mostly the responsibility of the student, with less guidance and support than new students anticipate.

(frontiersin.com, 2021)

the data.

why we can.

Over 150 educators across Australia

19 PhDs

45 Master's Degrees

110 Bachelor's Degrees

Over 10,000 hours of educating time

More than 2,000 successful students

we are the solution

At Full Spectrum Education, we can provide the extra study support you need to make sure your academic journey is everything you want and need it to be.

We will work with you to design a study schedule that allows you to engage in extra curricular activities, have a stress-free experience, and get the grades you deserve.

average one-on-one time per student

Per Week	Tertiary Classroom: 6 minutes Full Spectrum Education: 2 hours
Per Semester	Tertiary Classroom: 78 minutes Full Spectrum Education: 26 hours
Per Year	Tertiary Classroom: 156 minutes Full Spectrum Education: 52 hours

*Based on a 13 week term.

At Full Spectrum Education, we provide you with the Teachworks portal to fully manage your account with us. In Teachworks, you will be able to view upcoming lesson schedules, details of completed sessions, update payment details and even request changes of sessions directly with your educator.

Upon confirming your place with us and during the consultation you will be invited to complete your account registration and provide payment details. Our office will send you a welcome email, SMS and activation link to start your account. Before each session occurs, you will receive an SMS and email reminder to ensure you are prepared to get the most out of the session. Each week after your educator has taught, they will mark their session as 'attended' in Teachworks, and can provide notes on the session to you via email.

All invoices are generated on a Monday and will be processed for payment on a Friday. If a session is cancelled, it will be marked as 'cancelled' in Teachworks. If a session is logged as 'missed' this will be because we have been notified of a 'noshow' or a very late cancellation of service. This session will be charged. If you notice a discrepancy between our teacher's records being logged in Teachworks and your records please ensure you notify us at accounts@fsedu.com.au ASAP.

Basic Academic Package

6 x 2 hour sessions

\$165.00 (incl. GST) per session

Direct Debit Option: \$165.00 per week for 6 weeks: TOTAL **\$990.00**

\$25 administration fee if payment is declined. Suspension of service will occur if more than 2 payments are declined until account is up to date.

Speak to your FSE Education Development Manager about personalised payment and scheduling options.

THE PROGRAM

Our teaching and learning program works most effectively when sessions are successfully completed. If you cancel or reschedule a session, it is up to you to book a make-up session with your Full Spectrum Educator as soon as possible to ensure no components of the program are missed. No refunds are given on sessions that are not completed unless there are extenuating circumstances.

MAKE A BOOKING

All bookings can be made by calling or emailing Full Spectrum Education. Our team will assist you with any questions you may have. After your initial session with an Education Development Manager, all future sessions can be arranged over the phone or in person directly with your personal educator.

CANCELLATIONS

In the instance of individual cancellations due to sickness or any other reason, we advise our educators to schedule make up lessons with you or add the time lost over several subsequent sessions. This ensures the consistency of learning and allows our educators to obtain the intended results for you. These lessons will be classified as either new lessons or have additional time added to existing lessons in Teachworks.

HOW TO CANCEL/RESCHEDULE

To cancel or reschedule a session, please contact your Full Spectrum Education educator directly by phone call only, and they will assist you. If you cannot schedule a new time due to conflicting schedules, send us a quick email to info@fsedu.com.au and we will do our best to find a resolution.

HOLIDAYS

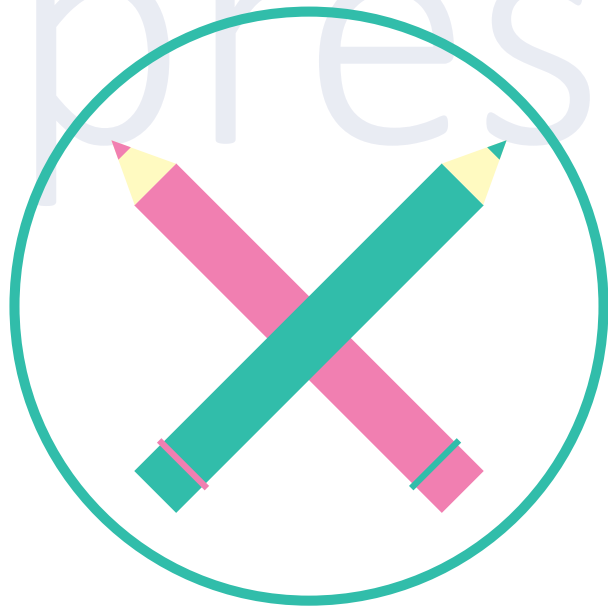

The FSE program has been built with you in mind and we understand that holidays may not be the time you want sessions. However, it is so important to upkeep sessions to maintain a routine and ensure academic success. Our robust team of educators are available to help you, so make sure you are having these discussions with your educator before the end of term to lock in your holiday learning.

REFERRALS

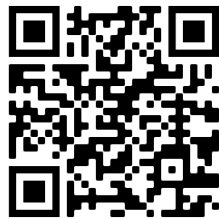

We do our best to provide the highest service to our students and families. We are delighted to reward any successful referrals with a \$50 credit on your teaching account (to be used for your own lessons and not redeemable for cash).
