A Foreword From Our Director of Education

Full Spectrum Education was established with the understanding that every student has individual requirements that need to be met in order to improve their grades, social skills and study abilities. For this reason, Full Spectrum Education is unlike any competing educational organisation. We craft learning plans specifically suited to the child's learning style and curriculum so the experience is truly personalised.

I guarantee that our team of passionate educators are effectively matched to each student to ensure the optimal enjoyment of their journey and best results. Here at Full Spectrum Education, we believe that our role as educators is to help students surpass their own own expectations of what they believe they can achieve.

01 We don't tell students what to do.

Welcome to Full Spectrum Education

WHO ARE WE?

Full Spectrum Education is an individualised, one-on-one teaching company that empowers our students to reach their full potential. We started Full Spectrum Education with the mindset that we could effectively influence and raise the standard of education services. This has been achieved by understanding the individual needs of each student before considering the best approach to pursue for that child's learning.

Regardless of achievement level, every student will benefit from our teaching. We have a robust team of registered teachers that have worked within Education Queensland, Catholic Education and Independent Private Schools. Each teacher we hire has a current QCT (Queensland College of Teachers) Check or Blue Card and we ensure all our teachers undergo an extensive induction and training process.

Our team's experience in Education Queensland has allowed us to gain a strong understanding of how each student learns and how we can create the ideal learning environment and experience for every student.

With Full Spectrum Education, parents should not just expect academic improvement. We work on skills that will also boost the students in personal, social and behavioural environments, encouraging them to work more efficiently, effectively and confidently.

Full Spectrum Education is a proud member of the Australian Tutoring Association.

INDIVIDUALISED, ONE-ON-ONE EDUCATION

Full Spectrum Education is proud to have a team of fully qualified teachers, ensuring our clients benefit from our detailed knowledge of the current curriculum and the best teaching methods to employ with each student. The current schooling system caters to the group, but we match our teaching style to the student's individual learning needs to help both their grades and self-confidence flourish.

We construct programs that focus on both the student's curriculum and exam schedule, as well as aiding with homework, assessments and general subject understanding. We pride ourselves on our ability to deconstruct complex ideas and present them in ways students will actually understand and remember.

Each one-on-one session is focused around current classroom content, assessments and assignments, revision and exam preparation. This combination is fundamental in improving the student's learning and their development into the future.

WHERE WE TEACH

Here at Full Spectrum Education, we come to the student. This means we are available to elevate your student's learning across Brisbane, the Sunshine Coast, the Gold Coast and Melbourne (launching 2020).

WHAT CAN WE DELIVER?

Qualified, registered teachers & industry professionals

Refined decision making processes

Improved social and behavioural skills

Individualised education plans

Comprehensive curriculum understanding

Boosted student confidence

We teach them how to do it.

04

Why Do Parents Need Full Spectrum Education?

ISSUES FACED BY STUDENTS TODAY

Students are facing new kinds of distractions and deterrents to their learning. Extracurricular activities, sporting and physical engagements, social media and gaming all create an increasingly challenging environment for their learning. Some students have trouble successfully managing their learning and lifestyle. As a parent, this can be hard to watch.

To assess if a student is having a troubling time managing their schoolwork, ask:

- Are they falling behind in class?
- Are they having difficulty grasping the fundamentals?
- Are their individual learning needs being met by their teachers?

WHY CHOOSE FULL SPECTRUM EDUCATION?

We are experts in...

- **Content & curriculum**
- **Effective goal setting**
- **How to teach any type of student**
- **Maintaining a structured plan for learning**
- **Identifying gaps in knowledge and addressing them effectively**
- **Efficient and effective study techniques for our students**

With Full Spectrum Education, parents can be assured that their child will be comprehensively assessed against the National Curriculum outcomes to determine the gaps in their knowledge and areas for improvement. Using their expertise, our teaching team will then construct programs to best address these gaps and help the student to gain academic success.

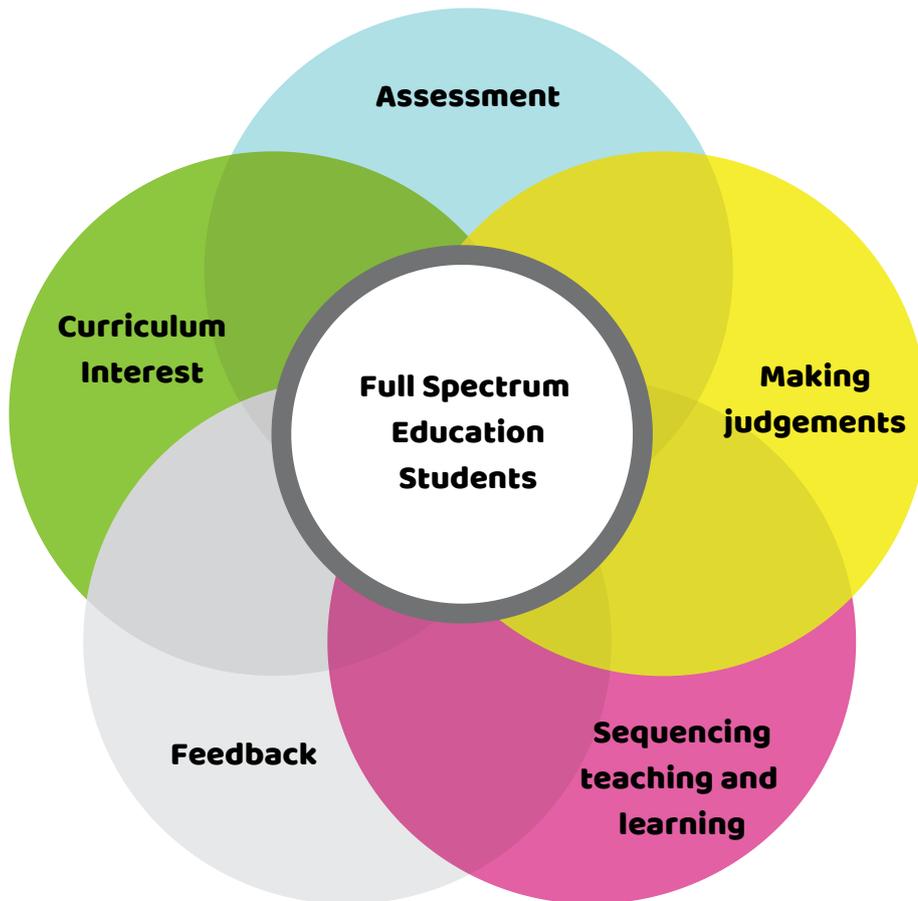

Full Spectrum Education students are also taught efficient and effective study methods to best optimise their study time. With our individual study plans, we ensure our students needs are met while fitting in with their commitments and lifestyles.

We teach them how to do it.

06

THE FSE PROGRAM

Here at Full Spectrum Education we recognise the importance of catering for a diverse range of learners. To achieve this, we need to ensure that our program has incorporated into it the five dimensions of learning which are crucial to any student being successful.

Our lessons are structured using the pedagogical framework of Dr Anita Archer*. The Explicit Instruction model is used across the vast majority of Queensland school's day in and day out, from early primary right through to senior secondary.

THE FSE PROGRAM

It is important to recognise that every student's lesson will be individualised to cater to their respective learning needs. The Full Spectrum Education Model is the product of current research. Research indicates that Explicit Instruction is a highly effective teaching strategy, particularly when students need to acquire new knowledge or skills. Here at Full Spectrum Education, we utilise the Explicit Instruction model by Dr. Anita L Archer and Charles A. Hughes featured in *Explicit Instruction: Effective and Efficient Teaching**.

Lesson Introduction	Define concept / skill to be taught State purpose and goal of a lesson WALT - "We Are Learning To..." WILF - "What I'm Looking For Is..."
Warm Up	Review prerequisite skills and knowledge Revise or make connections to previous related work Quick and focused, a few examples or checking for errors
I DO - Teacher Explicit Teaching & Modelling of Concept / Skill	Define concept / skill to be taught Explicitly model skill / strategy to be taught, demonstrating and describing verbalising thought processes using concise "think-alouds" Break down into clearly defined steps
WE DO Guided Practice	Students provided with prompts / scaffolds as they work all through work class examples Several opportunities given for students to practise Scaffolds gradually withdrawn to develop student independence
YOU DO - Student Independent Practice	Students perform skill / strategy that was modelled - individual activities that every child should be able to do independently Teacher constantly CFU and providing individual feedback
Review	Check for understanding - Ensure every child understands skill / concept
Throughout the Lesson	Checking for Understanding (CFU) needs to occur throughout Feedback: Providing immediate affirmative and corrective feedback to students Feedback should be specific and timely, not just praise

SUBJECTS WE TEACH

At Full Spectrum Education, we are able to teach any subject within the primary and secondary school curriculum as well as university, TAFE and adult education. We offer teaching in individual areas of study in addition to those listed here. If teaching outside of our core subjects is needed, get in touch.

WHAT OUR STUDENTS LEARN

Put simply, our students learn long term skills for lifelong achievement. We focus on teaching:

- 1 Goal implementation.
- 2 Independent learning.
- 3 Applying themselves both in and out of school.
- 4 Problem solving skills.
- 5 Developing high-quality assessments.
- 6 Social skills.
- 7 In-exam strategies.
- 8 Developing study programs.
- 9 Self-discipline.
- 10 Exam and assessment preparation.

Our Teachers

Our teachers are passionate about helping students achieve their best outcomes in their academic pursuits. Each and every teacher has a strong background in education as well as additional qualifications in areas of expertise. This ensures that we can confidently educate all students and put them in an environment where they can reach their full potential.

You can be assured that all of our teachers:

- Are current, registered and employed teachers working with either Education Queensland, Catholic Education, Independent Private Schools, Universities or in the private sector.
- Have a current Blue Card or government approved Working With Children Check.
- Have undergone an extensive application process.
- Use lesson plans and teaching resources that are based on and reference the Australian National Curriculum.
- Work in partnership with teachers and Student Learning Management at Full Spectrum Education to develop individual lessons for students.

We teach them how to do it.

12

QUALITY ASSURANCE OF OUR TEACHING TEAM

We are an educational organisation that prides itself on not only improving student outcomes, but developing our students so that they have a range of life skills necessary to enter the real world.

CONTINUAL GROWTH & DEVELOPMENT OF OUR TEAM

It is our vision as an educational institution to be guiding the learning of students across Australia. As we aid students throughout Queensland to achieve their best outcomes, we ensure that - as young learners who are making their way in the world - they develop skills to become confident to enter the world after school.

To ensure continual growth and development of our educational team, we are always on the search for self-motivated and proficient teachers that are passionate about student learning. As an organisation, we ensure that our team is continually growing and developing to give our students the best chance of success.

CURRENT RESEARCH AND PROGRAM PERFORMANCE

Full Spectrum Education has built a teaching team dedicated to quality teaching and learning, with the intent being to focus on improving student outcomes with passion and commitment to their role as educators.

Our teaching team also ensures that all of our students improve their academic achievement level while enjoying their learning experiences with our teachers. The entire team at Full Spectrum Education believe there is no easier way to remember content than to enjoy learning and understanding it.

As an organisation that is constantly looking to be at the forefront of developments in the educational landscape, we are continually evolving as an educational team. We want our students to benefit from our diverse range of educators that are determined to guide student learning with the current and relevant pedagogical information provided to us by Education Queensland and the Queensland Curriculum and Assessment Authority.
